

Company Profile

CEO Message

As the CEO of ITMAM AL-KHODAMAH (IAK), I am proud to lead a team dedicated to excellence in multiple fields and providing the best services for our valued clients. Our mission is to deliver innovative and reliable solutions that meet the unique needs of our clients while prioritizing safety and sustainability.

In an ever-evolving industry, we embrace the latest technologies and practices to ensure that we remain at the forefront of our field. Our skilled professionals are committed to upholding the highest standards of quality, ensuring that every project is completed efficiently and effectively.

At IAK, we believe that strong relationships are the foundation of our success. We work closely with our clients to understand their challenges and goals, allowing us to provide tailored solutions that drive positive outcomes.

As we move forward, we remain committed to fostering a culture of continuous improvement and innovation. Our dedication to eco-friendly practices reflects our responsibility to the communities we serve and the environment we cherish.

Thank you for trusting us with your projects. Together, we can build a safer and more sustainable future.

About US

Itmam Al-Khodamah prioritizes integrity in providing comprehensive construction, safety, and security solutions tailored for the construction industry. Our commitment encompasses:

- **Reliable Design and Engineering:** We develop customized solutions that integrate seamlessly with construction plans to meet your specific fire protection and detection needs, ensuring safety throughout all stages of construction activities.

- **Quality Supply and Installation:** We offer a wide range of systems designed to support various construction activities, including:
- **Fire Suppression Systems:** Clean agent, carbon dioxide, aerosol, and kitchen hood systems tailored for construction environments, including on-site workshops and temporary kitchens.
- **Fire Detection and Alarm Systems:** Ensuring early warning and response in both temporary structures, such as site offices and storage containers, and permanent installations.
- **Gas Detection Systems:** Protecting against hazardous gas exposure during construction activities, such as welding, cutting, and excavation.

- **Comprehensive After-Sales Support:** We provide maintenance services and Annual Maintenance Contracts (AMCs) to ensure your systems operate reliably over time, minimizing downtime on site and enhancing safety during ongoing construction work.
- **Public Address Systems:** Facilitating effective communication across construction zones to ensure that all personnel are informed about safety protocols and emergency procedures.
- **Security Systems:** Including CCTV cameras and fencing to safeguard construction sites against theft, vandalism, and unauthorized access during active construction phases.

- **Access Control Solutions:** Featuring pedestrian swing gates, biometric systems, and flap or tripod turnstiles to manage site entry and enhance security, ensuring only authorized personnel have access during construction activities.
- **Blasting and Excavation:** Our team employs the latest technology and techniques to execute precise blasting and excavation operations, ensuring efficiency and minimizing environmental impact. We take pride in our skilled workforce, trained to handle projects of any scale safely and effectively.
- **Generator Maintenance:** We provide comprehensive maintenance services for generators, ensuring they operate at peak performance. Our proactive approach helps prevent downtime and extends the life of your equipment.

- **Safety Training and Compliance:** We offer specialized training for construction staff, ensuring they are well-versed in safety protocols and the proper use of equipment throughout various construction tasks.
- **Temporary Site Solutions:** Supplying mobile fire extinguishers, temporary barriers, and signage that comply with safety regulations during the construction phase.
- **Risk Assessment Services:** Conducting thorough risk assessments to identify potential hazards on-site, ensuring that tailored safety solutions are effectively implemented throughout the lifecycle of construction projects.

Vision

"To be the foremost provider of cutting-edge safety and security solutions, delivering peace of mind to our clients through innovative technology and dependable service. We are committed to enhancing the safety and well-being of individuals and communities, creating environments where people can thrive without fear. Our goal is to foster a culture of safety, resilience, and trust in every project we undertake."

Our Goals

We are dedicated to achieving the following goals to enhance safety and security for our clients:

- 1. Safety First:** Prioritize the safety of our employees, clients, and the environment by adhering to strict safety protocols and regulations.
- 2. Project Management Excellence:** Strive for excellence in project management to ensure timely delivery and adherence to budget constraints while maintaining high-quality standards.
- 3. Client Satisfaction:** To build strong, lasting relationships with our clients by understanding their needs and exceeding their expectations through exceptional service.

4. Comprehensive Safety Solutions: To offer a wide range of integrated safety and security systems that address all aspects of protection, from fire safety to access control.

5. Innovation: Embrace innovation in equipment and techniques to improve efficiency, reduce costs, and enhance the quality of our work.

6. Regulatory Compliance: Ensure all operations comply with local, state, and federal regulations, maintaining our commitment to legal and ethical standards.

7. Sustainability: Implement eco-friendly practices in our blasting and excavation processes to minimize environmental impact. We are committed to promoting environmentally responsible practices throughout

our operations and product offerings, contributing to a safer planet for future generations.

8. Proactive Maintenance and Support: To provide comprehensive after-sales support, including maintenance services that ensure our systems operate at peak efficiency.

9. Community Engagement: To foster a culture of safety and security within the communities we serve, contributing to overall public safety and well-being.

By focusing on these goals, we strive to be a trusted partner in safety and security, ensuring peace of mind for our clients and their environments.

Our Project

We take pride in our extensive portfolio of completed projects that showcase our expertise in safety and security systems. Here are some notable examples:

1. Commercial High-Rise Building Security System

- **Scope:** Installation of a comprehensive security system, including CCTV cameras, access control, and fire detection systems.
- **Outcome:** Enhanced security measures and real-time monitoring capabilities for a major office complex.

2. Industrial Facility Fire Suppression System

- **Scope:** Design and installation of an advanced fire suppression system utilizing clean agents and carbon dioxide.
- **Outcome:** Improved fire safety protocols and protection of critical machinery in a high-risk environment.

3. Retail Store Fire Detection and Alarm System

- **Scope:** Deployment of a fire detection and alarm system tailored for a large retail chain.

- **Outcome:** Increased safety for customers and employees, with early detection capabilities leading to faster response times.

4. Warehouse Fire Safety Solutions

- **Scope:** Comprehensive fire suppression and detection systems for a large warehouse.
- **Outcome:** Safeguarding of inventory and infrastructure, reducing risk and liability.

HEALTH SAFETY & ENVIRONMENTAL POLICY

ITMAM ALKHODAMAH will adopt health and safety policy statement for the project expressing its commitment to the achievement of highest priority given to health and safety aspects and full compliance with KSA Health and Safety legal and contract requirements during entire execution of the project from design to commissioning phases.

The health and life of our people in the project are most precious, we shall not endanger these. This is the philosophy of Itmam Al-Khodamah policy for health and safety, which commits everyone to achieving zero harm to people.

ITMAM AL-KHODAMAH considers the health and safety and social well-being of its employees who may be affected by our construction activities to be of primary importance to the success of our project.

ITMAM AL-KHODAMAH aims to eliminate all unnecessary and unacceptable risks from the work environment. The correct way to do any job on site is the safe way and Itmam Al-Khodamah management takes the responsibility to ensure that all staff is provided with the necessary resources. We do realize that we have a responsibility not to endanger the environment due to our operations. Our organization will do its best in environmental protection.

ITMAM AL-KHODAMAH will meet and surpass all legislative requirements and strive towards achieving world's best practice of health and safety within the industry.

ITMAM AL-KHODAMAH management has defined the following mandatory actions and everyone is responsible for strictly following this.

- Ensure and maintain full compliance with KSA law, standards and codes in occupational health and safety applicable through the formalization of procedures.
- Ensure and maintain a health and safety working environment to prevent incidents, illness or damages to the health of employees, suppliers, visitors and public directly or indirectly related with the work.
- Continuous enhance the performance of the health and safety management system.
- Provide training and information for all employees with the aim of making them more aware of the risks to health and safety.
- Follow strictly all instructions of the responsible safety personnel.
- Violators of rules and instructions will be prosecuted immediately.
